**FINAL 2017-18 LAFCO WORK PLAN**  
**May 10, 2017**

## Introduction

Fresno LAFCo's Financial and Accounting Procedures specify that before July 1, the LAFCo Executive Officer shall prepare for the Commission's review and approval an annual work plan. The work plan is prepared in conjunction with the annual budget. The work plan identifies the purposes and plans of State Law and local policy, including requirements for service reviews, sphere of influence updates, and other mandated functions.

This work plan reflects the Fresno LAFCo's policies and procedures and the current and the dynamic needs of the local agencies in Fresno County. The work plan is composed of projects to be undertaken directly by LAFCo staff during the year.

The work plan is developed to advance the state's interests, the Commission's issues and goals.

- I. The scope of the work plan is consistent with the legislature's findings and declarations:
- It is the policy of the state to encourage orderly growth and development which are essential to the social, fiscal, and economic well-being of the state.
  - The logical formation and determination of local agency boundaries is an important factor in promoting orderly development and in balancing that development with sometimes competing state interests of discouraging urban sprawl, preserving open-space and prime agricultural lands, and efficiently extending government services.
  - Providing housing for persons and families of all incomes is an important factor in promoting orderly development.
  - This policy should be effected by the logical formation and modification of the boundaries of local agencies, with a preference granted to accommodating additional growth within, or through the expansion of, the boundaries of those local agencies which can best accommodate and provide necessary governmental services and housing for persons and families of all incomes in the most efficient manner feasible.
  - The Legislature also finds that, whether governmental services are proposed to be provided by a single-purpose agency, several agencies, or a multipurpose agency, responsibility should be given to the agency or agencies that can best provide government services.
- II. The projects are identified to address important issues identified by the Commission in its initial Policies, Standards, and Procedures Document, adopted in 1986 or as revised. Fresno LAFCo identified the following list of problems and needs locally, which pertain to the Commission's responsibilities, and developed policies, standards and procedures in this document in order to help resolve the problems and meet needs within the Commission's jurisdiction:
1. Proliferation of overlapping and competing local agencies.
  2. Need for more cooperation/coordination among local agencies
  3. Inadequate level or range of services in county/community.
  4. Inadequate revenue base or adverse fiscal impacts for local agencies
  5. Illogical, gerrymandered agency boundaries, islands, surrounded areas.
  6. Illogical agency service areas.
  7. Conflicts between urban and rural/agricultural land uses.

8. Premature proposals and lack of development proposals.
9. Phasing of agency expansion/growth.
10. Determining environmental effects of proposals.
11. Determining consistency with city or county general plans.
12. Urban sprawl and leapfrog urban development.
13. Guiding urban growth away from prime agricultural lands.
14. Defining agricultural lands and open space lands.
15. Opposition of proposals by residents and popularity of proposals by landowners/developers.
16. Provision of adequate noticing of LAFCO hearing and conducting authority hearing.

On February 18, 2015, the following Special District issues were presented to the Commission:

1. No adopted annual budget, by-laws, or procedures.
2. No services.
3. District board nonfeasance.
4. Grand Jury Reports.
5. Lack of staff or staff lacks technological/managerial/financial (T/M/F) expertise.
6. Board members fulfill both policy and operational functions.
7. Lack of coordination of similar services between and among different special districts.
8. Lack of transparency and/or Brown Act compliance.
9. Changing demographics, antiquated mission.
10. The special district does not cooperate with LAFCo on the MSR.

Other issues have emerged since that time:

11. District board lacks quorum.
12. Board members lack T/M/F expertise.
13. Board members continue to serve after terms expire.

III. The work plan is refined to conform to Commission goals:

1. Encouraging Orderly Formation and Development of Agencies;
2. Encouraging Consistency with Spheres of Influence and Recommended Reorganization of Agencies;
3. Encouraging Orderly Urban Development and Preservation of Open Space Patterns;
4. Encouraging Conservation of Prime Agricultural Lands and Open Space Areas;
5. Providing Public Access to the Commission via the Internet; and
6. LAFCo Disadvantaged Communities Policy.

## **2017-18 Work Plan Items**

### *Continue the Municipal Service Review Program*

The Fresno LAFCo's MSR Program is currently the most significant function of the Fresno LAFCo. LAFCo exercises a unique statutory authority among governmental agencies in the County in the implementation of its MSR Program. The MSR program has facilitated the improvement of special district performance; improved interagency communications, and resulted in the overall improvement of second-generation MSRs.

Municipal Service Reviews are the only independent "governance audit" performed locally, regularly, and intended to coordinate services among and between local agencies. The MSR program supports the respective missions of local agencies, improves service delivery efficiencies, and enhances accountability of local agencies.

The MSR Program has resulted in increasing order and efficiencies for LAFCo, the subject local agencies, and allied local and state agencies. Nearly all of the current MSRs have revealed one or more issues of local agency operation that warranted determinations and supportive recommendations. The issues raised have included lack of compliance with Principal Acts, lack of compliance with Brown Act, inconsistent boundaries, and other things that can negatively influence service delivery efficiencies.

Pursuant to Commission direction in 2014 for an assertive MSR program, staff developed an ambitious schedule of MSR updates for all local agencies. The more complex and in-depth MSRs have influenced the schedule. For some local agencies far more time than anticipated was needed to make personal contact with a responsible party at a special district and to receive the public records requested by LAFCo. In other cases, initial speedy contact and acquisition of public data has revealed boundary discrepancies that take time to coordinate a resolution between LAFCo and one or more other public agencies (including Fresno County Public Works and Planning, County Elections, and the subject local agency). In consideration of these experiences, the MSR schedule has been amended and is now proposed as a sequence of MSR updates.

Staff also established a trial program working with Fresno County Public Works and Planning to augment LAFCo's local agency mapping project. The first year's experience produced 25 maps. Staff recommends that this trial program be extended another year to take advantage of the interagency efficiencies gained during the first trial year. In addition, staff is working with the CSU Fresno Geography Department for GIS internships to augment this program.

#### Update Commission Policies and Procedures Manual

Staff proposes an update of the Commission's Policies and Procedures Manual. The Commission will hold monthly briefings on the manual's current adopted policies, standards, and procedures and will provide direction to staff as necessary to update and modify the manual.

#### Application Processing (Pre-applications / Applications)

Annexations, detachments, extensions of service, spheres of influence updates, and other district modifications that are requested by local agencies and the public, as well as any activities initiated by the Commission will be processed in accordance with statute and policy.

Staff may engage in incidental changes to the LAFCo website and documents therein to increase application processing efficiencies.

#### Consultation and facilitation to local agencies and the public

This accounts for the many requests for information, interpretation, advice, and project facilitation that arise.

### Local Agency Outreach

Staff will contact all local agencies and offer to attend council and board meetings to explain the role of LAFCo, Spheres of influence, Reorganizations, MSRs, and Annexations. In addition, pursuant to the adopted Annexation Program Guidelines, staff will offer an Annexation Program Workshop to local agency staff and the development community. This work item includes continued participation with the emerging local chapter of the California Special District Association.

### Application Fee Analysis

This project will evaluate the Commission's application fees: do the current fees balance expenses associated with application processing; the state of subsidiary expenses (such as services provided through the Professional Services Agreement with Fresno County). This work item will also collect and analyze data to determine the fiscal implications of waiving application fees.

### Water Policy Development and Ad Hoc Committee

The Commission added this work item in 2016. The Committee has held a public listening session and a meeting with State Water Resources Control Board staff. The committee is seeking an additional meeting with Groundwater Sustainability Agency directors.

### Agricultural Preservation Policy Development and Ad Hoc Committee

This project began in FY 15-16 and has been in abeyance until the completion of the water policy development work item.

### Other Activities as Directed

In addition to the work plan items presented above, staff is available for additional activities as directed by the Commission.
