This three-part legislation requires local agencies to develop groundwater sustainability plans that are compatible with their regional economic and environmental needs. SGMA creates a framework for sustainable local groundwater management for the first time in California's history.

SGMA requires local agencies to form Groundwater Sustainability Agencies ("GSAs") in local groundwater basins by June 2017 and requires the adoption of Groundwater Sustainability Plans ("GSPs") for groundwater basins deemed high priority by year 2020. The North Kings GSA will represent the City of Fresno.

The City of Fresno, acting as "Lead Agency" under CEQA, adopted a Mitigated Negative Declaration for Prezone Application No. P19-00801, Planned Development Permit Application No. P19-00846, Annexation Application No. P19-00843, and Vesting Tentative Tract Map No.6201/UGM and 6235/UGM filed with the Fresno County Clerk Office on January 30, 2020 consistent with the requirements of CEQA. As "Responsible Agency," the Commission is required to review and consider the City's environmental documents prior to taking its action. If the Commission determines that these documents are adequate, pursuant to CEQA, it may make the required findings provided under "Recommendations" above.
